

ROGER CRAWFORD

TURNING THE PESSIMISM OF "I CAN'T" INTO THE UNSTOPPABLE POWER OF "I CAN!"

AV REQUIREMENTS

Lavaliere Microphone

A lavaliere microphone clips to the lapel or fits around the neck. A wireless lavaliere is preferred; however, one with a cord is satisfactory. Please make sure that the cord has sufficient length for Roger to walk from side to side on the stage.

Microphone for Introduction

The person who introduces Roger will need a separate microphone.

Stage

Please provide an elevated stage so audience members can see Roger clearly. Roger needs a minimum of 12 feet in stage length.

DVD Player and Video Projector Screen

Roger will use a 2 minute video in his presentation that has no audio. He will voice-over the video while being shown. Please make sure that the screen is large enough for everyone in the audience see. If you do not have rear projection, please place the screen off to the side of the stage so the projector does not block the view of the audience. Another option (for groups no larger than 300) is to place two large televisions on either side of the stage. Roger will bring the DVD with him.

Audience Seating

Roger requests that the audience be seated as close to him as possible. Theater style is preferred. If Roger is speaking following a meal, please make sure that the meal servers are not picking up dishes or pouring coffee during his presentation. This can be distracting for the audience.

Questions?

If you have questions regarding Roger's audio-video needs or the room set-up, please contact

Kathryn Hill, Director of Possibilities, 1-800-311-3344.
